Summary

Proactive second-year BCA Computer Science student at Surana College with strong academic performance. Possesses exceptional communication and coordination skills, fluency in English, and a keen interest in web development.

Skills

Front-end Development: HTML5, CSS3, JavaScript
JavaScript Libraries: React.js, Node.js (beginner)
Back-end Development: Python, PHP
Web Server: XAMPP

Projects

Web Development Project: Responsive Car Dealership Website

- **Engaging Landing Page:** Designed an enticing landing page capturing the dealership's essence.

- **Secure User Authentication:** Implemented robust user authentication for secure login and sign-up.

- **Efficient Communication:** Established a contact form for smooth customer-dealership communication.

- **Dynamic Car Listings:** Utilized JavaScript for real-time updates and dynamic tables displaying detailed car information.

- **Backend Integration:** Connected the website to an Apache (XAMPP) server using PHP for efficient data retrieval.

Soft Skills

Excellent communication, team player, adaptability, problem-solving.

Extracurricular Activities

IT Manager Contest: Achieved the top position in a rigorous competition simulating a comprehensive hiring process with multiple rounds of selection. Successfully demonstrated exceptional skills and expertise, securing success during the final interview round.

NCC CDT Volunteer: Actively engaged in volunteering for various awareness programs, rallies, and marathons to promote social causes and community awareness.

College Events Organizer: Organized and participated in numerous college events, successfully conducting activities like "Burst the Bubble," "Code Wars," and "Poster Making" to foster an environment for exploring new and insightful activities.
